It's not uncommon to see teenagers glued to their smart phones, swiping over social media sites with the agility of ninjas. But for 17-year-old, Thomas Suarez, being on his phone is all about business. Suarez taught himself coding at the age of 7, developed his first iPhone app at age 9, and gave his first TED talk at 12-years-old, which has been watched over 4.9 million times on TED and YouTube, and translated into 37 languages: [http://www.ted.com/talks/thomas\\_suarez\\_a\\_12\\_year\\_old\\_app\\_developer](http://www.ted.com/talks/thomas_suarez_a_12_year_old_app_developer)

Suarez is also the Founder and Chief Engineer of CarrotCorp Inc., a technology company that creates mobile applications for Apple iOS, Android, Google Glass and smartwatches, develops 3D printing systems and provides advanced consulting in engineering and technology. Suarez has been a guest speaker all over the world and recently returned from Cancun, Mexico, where he was the keynote speaker at ASOFOM, a conference for top-level bankers and financiers about how to support and encourage tomorrow's young innovators. He was also invited by the royal family of Saudi

Arabia to speak at the MiSK Global Forum, an initiative to empower the youth of the region to become global citizens and to lead the way for the sustainable development of Saudi Arabia.

STAR: What led you to start coding?

TS: I've always been fascinated by technology. For as long as I can remember I've tinkered with it, even taking apart old VCRs to see how they worked. Initially, I was interested in developing for the Mac platform, and then when the iPhone came out, I wanted to develop apps for it. Through online tutorials and experimentation, I taught myself iOS development skills.

STAR: Did you understand coding right away or did it take some practice?

TS: My coding journey has always been about experimentation. I learn best with a hands-on approach. At the time, there wasn't anywhere to go for someone my age to learn coding, so it was really about trial and error. Without trial and error, I wouldn't be the developer I am today.

STAR: How did you get the opportunity to speak at TEDx and end up on TED.com?

TS: There was a TEDx event in Manhattan Beach and the education foundation was involved with the planning of it. They had heard about me, and the app club (app city) I had started at my middle school, and invited me to speak. The TEDx talk went extremely well and they ended up publishing it on TED.com due to the high demand for it.

STAR: How did you become involved with STAR?

TS: At a Google IO viewing event I attended in 2013, I met a STAR representative. We began to discuss AppCity and all the exciting programs STAR was doing with technology and that's when I formed a working relationship with STAR. It's been awesome ever since.

STAR: Where do you want to be in 10 years?

TS: In the future I would love AppCity and coding education to become prominent, and I look forward to developing and working with upcoming technologies.

## CARPENTER STAR NOVA 3: 1/30/2017-3/24/2017

## STAR THURSDAYS

### STAR MINECRAFT SAGA: ESCAPE FROM ATLANTIS!

After a plane crash in the Atlantic Ocean, you and your fellow Minecrafters find yourselves trapped in the mysterious underwater city of Atlantis. Survival will depend on learning to master the magic and technology the Atlanteans left behind. Escaping will be harder: though the Atlanteans have long-since disappeared, something in Atlantis is still alive. . . and it doesn't want to let you go.

This is a sandbox-style Minecraft Saga adventure set in an abandoned underwater city. Students will work together to explore the lost city of Atlantis, discover its secrets, and find a way to escape to the surface.

*NOTE: As this is an advanced Minecraft adventure, students should have experience with Minecraft before joining this class. Limited to 12 students maximum.*

*A part of the STAR S.T.E.A.M. Initiative, this class utilizes multiple disciplines (Science, Technology, Engineering, Art, Mathematics) to convey crosscutting concepts.*

## SKATEBOARDING: BOARDERZ

Learn the basics of skateboarding from pushing, braking, and turning to advanced moves like kick flips, tail slides, and carving. Join STAR's exciting skateboarding safety and instruction class and you'll be on your way to rival pros like Tony Hawk and Ryan Sheckler! Our professional skateboarding instructors will conduct weekly skill assessments for both beginner and experienced skateboarders as they learn a series of progressive moves from the Boarderz "tricktionary". Students develop skills at their own pace, and learn important "Skate Safe Techniques" to promote skateboard safety. We encourage students to bring their own helmet, elbow pads, knee pads, and wrist guards designed for skateboarding. *NOTE: Limited to 10 students maximum. Boards will be provided during class time.*

### SKATEBOARDING: RIPPERZ CLASS

Want to be the next Nyjah Huston? Take your skateboarding skills to the next level in this advanced skateboarding class. In Ripperz, skateboarders will learn the biomechanics of ollies, grinds, and flip tricks! Each class you'll learn and practice the "trick of the day" and get individualized instruction on how to master it. Our professional skateboard instructors focus each class on skateboarding safety as they show you how to develop greater board control, "switch stance" skating, and teaching the newest and most advanced skateboard tricks. A skills assessment is required to determine eligibility for this class. Must be able to drop-in and kick turn on the ramp, and have a strong "push". We encourage students to bring their own helmet, elbow pads, knee pads, and wrist guards designed for skateboarding. Boards will be provided during class time. *NOTE: Limited to 10 students maximum.*

**Day: Friday**

## STAR Eco Station Needs Your Help: Auction Items Please

### Auction Items

Electronics, Home Goods, Gift Cards

### STAR Eco Station Wish List

Simple Green cleaner

Sponges

Cotton Balls

Q-Tips

Disposable Gloves

Environmentally Safe Dish Soap

Blankets

Towels

Pet beds

Now that we have gotten through holiday season and entered the New Year, you may find yourself looking around your home wondering how you are going to make room for all of the extra gifts you accumulated. Don't worry, STAR Eco Station can take them off your hands and you can contribute to a worthy cause.

The STAR Eco Station is a non-profit rescue so we are always looking for help in providing the best care possible for all of our rescued animals! In an effort to help raise funds to support the facility we are planning an auction. All money generated by the auction will go directly towards the care and well being of all the animals, as well as help in the construction of a brand new enrichment area for our bobcat!

Generating funds for the daily care of over 200 rescued animals is already a steep hill to climb, so when extra projects come up it really stretches our resources. It is time for our bobcat, Lulu, to receive a new home to live in to help improve her quality of life. So if you receive gifts that just aren't you, or that you already have, think of us and donate so we can auction them off to help with the construction of her new enclosure.

In addition, we are always in need of a variety of cleaning and first aid supplies that are used in the care of our animals. Some things the STAR Eco Station is constantly in need of are Simple Green cleaner, sponges, cotton balls, Q-Tips, disposable gloves, environmentally safe dish soap and

cleaners. Lots of our animals like soft and cozy things to cuddle up with, so any clean clothing, towels, blankets or pet beds will also go a long way. If you have any other items you are thinking about donating to the STAR Eco Station but are unsure if it is something that can be used, feel free to contact us.

Happy New Year from all us at the STAR Eco Station and thank you all for your continued support, keepin' it wild!
